DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-11, drawn to a product and method of making a product that comprises a nonwoven or paper, a deodorant and it is processed by graft polymerization.

Group II claim(s) 12 and 13, drawn to a product and method of making a product that comprises paper, a deodorant and it is processed by irradiating γ -ray.

Group III, claim(s) 14 and 15, drawn to a product and method of making a product that comprises paper, a deodorant and it is processed by intermingling.

Group IV, claim(s) 16 and 17, drawn to a product and method of making a product that comprises a deodorant impregnated in threads and then is woven.

2. The inventions listed as Groups I, II, III and IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: each group uses different methods of making the product. (i.e. the deodorant is applied or incorporated in the particular substrate by processes such as graft polymerization, irradiation, intermingling or impregnation). Further, different substrates are required. (i.e. paper, nonwoven or woven).

3. A telephone call was made to Morris Liss on March 21, 2003 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1771

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
